

If you think all refreshment companies are the same... **think again**

 **BACON  
WHITNEY**

## Think friendlier {service}

Like most people, you've probably had at least one negative experience with a vending machine, or the companies behind them. Bacon Whitney is here to change that with a new type of experience that's as refreshing as the ice cold beverages in our well-stocked machines. The secret to our sauce is a huge helping of friendly, knowledgeable and reliable support from our 24seven™ franchise owner/operators.

Without question, Bacon Whitney's 24seven™ franchise owners will leave you more satisfied than conventional vending operators. Why are we so confident?

- Unlike traditional employees, our diverse base of franchise owners provide the highest standard of service because they have a vested interest in the company's success and are eager to please you because you are *their* customer.
- They utilize proprietary, service-driven technology that provides real time visibility into equipment performance—assuring that equipment is properly maintained and well-stocked.
- Our franchisees have access to a wide variety of quality vending equipment that are both attractive and functional.
- Our supplier partnerships ensure that your machines are stocked with a wide variety of snacks, drinks, coffee and cold foods from all your favorite brand names.

In a nutshell, our owner/operators can offer you the friendly, personal service of a local company, backed by the resources of a national company.

We're changing the way businesses think about automated refreshments

- Corporate
- Retail
- Industrial/Manufacturing
- Healthcare/Institutional
- Educational
- Government/Military
- Lodging/Hospitality

## Think smarter {equipment}

A successful automated refreshment program is no longer just about products and machines—it's about technology. Our automated proprietary technology enables us to remotely monitor each vending machine 24 hours a day, seven days a week so that we are better equipped to plan, control and evaluate our operations. This visibility allows us to:

- Give customers the products they really want based on analysis of real time and historical sales data
- Provide customized sales reports
- Monitor equipment status and receive alerts when issues arise with performance or inventory
- Quickly respond to equipment malfunctions, reducing downtime
- Increase customer satisfaction by keeping every piece of equipment clean, properly maintained and well stocked

Our proprietary software also enables us to provide customers with transparent access to our sales data.

At Bacon Whitney we serve a variety of products that fit you, using vending equipment technology that tells us what you like. Our team of seasoned professionals have years of experience.

Bacon Whitney continues to be the market leader in providing intelligent vending solutions that bring healthy food and people closer together.

We have more than 2,000 customers in North America and our mission is to utilize proprietary technology, owner/operator passion and financial transparency to provide you with a superior customer experience.

## Think better {choices}

Whether it's a midmorning snack or a late afternoon pick-me-up, Bacon Whitney serves products that fit a variety of lifestyles and can work with you to offer healthy alternatives. Nobody gives more options or control over the types of food, snacks and beverages available to customers than Bacon Whitney.

Choose any combination of our programs to create a fast, convenient and fresh vending service for your employees and guests:

- **Beverages**

Our one stop state-of-the-art machines are stocked with a variety of your favorite thirst quenchers from soda, iced tea, energy drinks and juices, to regular and flavored spring waters. We also offer an assortment of chill chasers like gourmet coffees, international flavors, and Chai tea to name a few.

- **Snacks**

We offer brand name snacks to satisfy a variety of cravings, including traditional snacks, like chips and candy, as well as healthier alternatives such as energy bars and trail mix.

- **Office Refreshment Services**

Fresh coffee products and other hot beverages including a variety of teas and hot chocolate are delivered in high-tech machines that brew each cup individually.
